### Profile

Junior Backend Developer with proven student intership and work experience helping companies to create and maintain better reusable codebase. Ability to continuously learn and gain experience from senior developers and through various courses. Experience on projects within the faculty doing Backend and Frontend. Passionate about learning and development with a desire to apply skills to more complex and larger projects. I consider myself an ambitious, creative, and communicative person, open to new challenges and opportunities to grow and learn, with problem-solving mindset. Experience with teamwork/ group work.
